

How to Use This Guide

Begin by printing this page on US Letter (8.5 × 11 inch) paper. In your printer settings, ensure the page scale is set to 100% or Actual Size. After printing, use a ruler to confirm that the measurement box on the right matches the ruler exactly. Now, you're ready to measure your ring size.

Method 1 :-

Size a Ring You Already Have

What you'll need :-

1. Printer & paper (Pg 2)
2. An existing ring

1. Select a ring that fits well. It should sit securely on your finger while still being able to slide on and off comfortably.
2. Place the ring over the printed circles (pg 2) until the inside edge of the ring aligns perfectly with one of the circle outlines.
3. Check the alignment carefully. The printed circle should touch the inside edge of the ring without overlapping it.
4. The size number below the matching circle is your ring size.

Method 2 (If You Don't Have a Ring Availble) :-

What you'll need: -

1. Paper or string
2. Ruler

1. Wrap a thin strip of paper or string around the finger.
2. Mark where the ends meet.
3. Measure the length with a ruler in mm.
4. The length is your finger circumference. Find the matching circumference (C) in the chart below to determine your ring size.
